Terms of Service

Effective 11 November 2026 · ClipPilot (https://clipplot.vercel.app) is operated by the ClipPilot team.

1. What ClipPilot is

ClipPilot is an internal tool used by the ClipPilot team to research trending gaming topics, draft original video scripts, render videos, and publish them — after human review — to YouTube channels owned or managed by the ClipPilot team. It is not offered to the public.

2. Who may use it

Only people authorized by the ClipPilot team may sign in. Access credentials must not be shared. We may remove access at any time.

3. YouTube

ClipPilot uses YouTube API Services. By connecting a YouTube channel, you agree to be bound by the YouTube Terms of Service and acknowledge the Google Privacy Policy. You may only connect channels you own or are authorized to manage.

4. Content rules

- Every video must be reviewed and approved by a person before it is uploaded.
- Videos must be original: our own commentary over our own gameplay footage, short official trailer excerpts used under fair use, licensed material, or original graphics. Downloading or re-uploading other creators' videos is not allowed.
- Videos must follow YouTube's Community Guidelines, copyright rules and monetization policies. Rumors must be presented as rumors; misleading titles or thumbnails are not allowed.
- The channel owner remains responsible for everything published on their channel.

5. AI-assisted content

Scripts and metadata are drafted with the help of an AI model (Anthropic Claude) and narration may use synthetic voices. Drafts can be wrong; the reviewer is responsible for checking facts before approving. Where YouTube requires disclosure of altered or synthetic content, it must be disclosed.

6. Availability and changes

ClipPilot is provided "as is", without warranties of any kind. Features may change or stop. To the extent permitted by law, the ClipPilot team is not liable for indirect or consequential losses, including lost views or revenue.

7. Privacy

How we handle data — including data from YouTube API Services — is described in our Privacy Policy.

8. Contact

Questions, privacy or data-deletion requests: salmanamjad6863@gmail.com (the ClipPilot team). We reply within 7 days.
